Professional Summary

Enthusiastic MCA student with practical experience in Java, Spring Boot, Hibernate, RESTful API development, and relational databases including MySQL and PostgreSQL. Proficient in developing backend applications, performing CRUD operations, and integrating databases. Eager to begin a career as a Software Developer where I can utilize my technical knowledge, contribute to impactful projects, and enhance my professional skills.

Education

MCA (Master of Computer Application) : IMSIT College, Chhatrapati Sambhajinagar | **Pursuing**

BCA (Bachelor of Computer Application) : SBES College, Chhatrapati Sambhajinagar | **81.3%** | **2025**

HSC (Higher Secondary Certificate) : Rashtriya College, Jaitapur | **70.33%** | **2022**

SSC (Secondary School Certificate) : Sane Guruji Vidyalaya, Kannad | **85.80%** | **2020**

Technical Skills

Programming Languages: Java, C, C++
Core Java: OOP Concepts, Collections Framework, Exception Handling, Multithreading
Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA
Databases: MySQL, PostgreSQL
Web Technologies: HTML5, CSS3
API Development: RESTful APIs, CRUD Operations
Tools: Eclipse IDEA , IntelliJ IDEA, Postman, JIRA
Version Control: Git, GitHub**,**
Core Concepts: MVC Architecture, Database Design, SDLC
Operating Systems: Windows, Linux Projects

Projects

Garage Management System
Technologies Used: Java, Spring Boot, Hibernate, PostgreSQL, REST APIs

- Developed a backend application to automate garage management operations.
- Implemented CRUD functionalities for customer, vehicle, service, and billing management.
- Designed and developed RESTful APIs for efficient client-server communication.
- Integrated PostgreSQL database using Hibernate ORM for data persistence.
- Applied layered architecture principles to build a scalable and maintainable application.

MediTrack – Hospital Management System
Technologies Used: Java, JDBC, MySQL, SQL

- Developed a Hospital Management System to manage patient records, doctor details, appointment scheduling, and billing processes.
- Implemented CRUD operations using Java and JDBC for efficient database interaction.
- Designed and managed a MySQL database for secure and accurate data storage.
