PROFESSIONAL SUMMARY

MCA student and fresher Java Backend Developer with hands-on experience building RESTful APIs and full-stack modules using Java, Spring Boot, Spring MVC, Hibernate, and PostgreSQL/MySQL. Built two end-to-end applications covering authentication, CRUD operations, and business workflows, following MVC architecture, clean coding practices, and version control with Git/GitHub. Seeking an entry-level Software Developer / Java Developer role to apply strong fundamentals in backend development and databases.

EDUCATION

MCA — IMSIT College, Chhatrapati Sambhajinagar Pursuing | 2nd Sem: 78.30%

BCA — SBES College, Chhatrapati Sambhajinagar 81.3% | 2025

HSC — Rashtriya College, Jaitapur 70.33% | 2022

SSC — Sane Guruji Vidyalaya, Kannad 85.80% | 2020

TECHNICAL SKILLS

Languages: Java, C, C++

Frontend: HTML, CSS, Bootstrap, JavaScript

Frameworks: Spring Boot, Spring MVC, Spring Core, Spring Data JPA, Spring Security, Hibernate, JDBC

Databases: MySQL, PostgreSQL, Oracle

Tools & Platforms: Git, GitHub, Postman, JIRA, Maven, IntelliJ IDEA, Eclipse IDE, VS Code

Concepts: RESTful API Design, MVC Architecture, CRUD Operations, Exception Handling, Server-side Validation

INTERNSHIP EXPERIENCE

Java Backend Developer Intern — Master Diamond Company | *Approx. 2-3 Months*

- Worked on the backend of a Garage Management System using Java and Spring Boot.
- Implemented customer, vehicle, service, spare parts inventory, and billing management modules with complete CRUD operations.
- Designed and developed RESTful APIs and tested endpoints using Postman.
- Integrated PostgreSQL with Spring Data JPA (Hibernate) for efficient data persistence and retrieval.
- Implemented input validation and exception handling, following clean, reusable, and maintainable coding practices.

ACADEMIC PROJECT

Banking Management System | *Java, Spring MVC, Spring Core, Spring JDBC, PostgreSQL, HTML, CSS, Bootstrap, JavaScript*

- Developed the backend of a secure web-based banking application using Java, Spring MVC, Spring Core, and Spring JDBC.
- Designed and implemented modules for customer registration, authentication, account management, fund transfers, loan processing, and transaction history.
- Built business logic and integrated PostgreSQL for efficient data storage and retrieval using Spring JDBC.
- Followed MVC architecture with server-side validation and structured exception handling for reliability.
- Collaborated on frontend integration using HTML, CSS, Bootstrap, and JavaScript for dashboards and forms.
- Managed project dependencies with Maven and version control using Git/GitHub.
- Integrated a chatbot feature to assist users with banking queries and navigation within the application.

CERTIFICATIONS

Java Full Stack Development Certification
